

COMPANY PROFILE

About Us

Founded in 2005, **RiskLogic** is a leading provider of resilience solutions across Australia and New Zealand. We empower businesses, governments, and not-for-profits to build robust risk management strategies and enhance resilience across their organisation. Our solutions are designed to help organisations proactively prepare for an incident, manage risk and respond effectively to crises.

We specialise in uplifting **Business Resilience** by providing pragmatic solutions in **Crisis Management**, **Business Continuity**, **Cyber Resilience** and **Crisis Communications**.

470
HOURS OF SCENARIO EXERCISES DEVELOPED
AND FACILITATED IN THE LAST TWO YEARS.

840
MEMBERS FROM RESPONSE TEAMS
EXERCISED IN 2024 - 2025.

1765
WORKSHOPS FOR BUSINESS IMPACT ANALYSIS
CONDUCTED IN THE LAST TWO YEARS.

OUR SOLUTIONS

At **RiskLogic**, we focus on delivering industry-leading resilience solutions that are tailored to meet the unique needs of each organisation. Our expertise spans across Crisis Management, Business Continuity, Cyber Resilience, and Crisis Communications, ensuring that our clients are equipped to navigate and overcome the most complex of incidents.

Business Continuity Program Establishment

We support our clients by scoping, developing, and embedding their **Business Continuity Management (BCM)** programs. Our expertise in **BCM** is a niche skill, and we take pride in building tailored continuity programs that are highly effective and aligned to industry standard. We ensure your organisation has a comprehensive, custom-built framework to continue operations seamlessly, even in the face of unexpected disruptions.

Business Continuity Plan & Crisis Management Plan Development

At **RiskLogic**, we specialise in the development of business continuity and crisis management plans. Each plan is user-friendly, effective, and meticulously tailored to the unique needs of each business by considering an organisations size, complexity and operating environment. Each plan provides a clear, actionable path forward, ensuring that your organisation is prepared for whatever may arise and has the tools to respond effectively.

Training & Exercise Simulations

At **RiskLogic** we conduct realistic, high-impact exercises that prepare your teams for potential incidents or crises. These exercises **simulate** real-world scenarios, helping teams practice and refine their responses to critical situations. Our training is engaging, tailored to your organisation's specific needs, and ensures that your team is fully equipped to handle a crisis with confidence and precision. We provide training and exercising services to all levels of an organisation. This includes technical and operational teams through to crisis management teams and Board of Directors.

Consulting & Advisory Services

Beyond our core services, we offer expert consulting and advisory services to support your organisation's broader resilience efforts. We provide resilience program reviews, business impact analysis, risk assessments, and the development of comprehensive strategies that align with your business objectives. Our team works closely with yours to ensure you have the guidance and

tools needed to manage risks and enhance resilience across all operations.

Crisis Management & Real-Time Support

RiskLogic is committed to providing on-the-ground support when you need it most. Our team is ready to assist during a crisis, helping you manage the situation and minimise its impact. We offer real-time crisis support, develop rapid response communication strategies, and provide expert guidance in cyber resilience to ensure your organisation is fully prepared to navigate a crisis.

OUR IMPACT

At **RiskLogic**, we focus on delivering solutions that have been recognised as some of the best in the industry. Our services are designed to help organisations navigate and overcome their most critical risks. With a practical, client-centric approach, we work to ensure that businesses, governments, and not-for-profits are fully equipped to manage disruption and continue operations even in the face of unexpected crises.

With over 500 clients across a wide range of industries in **Australia**, **New Zealand**, and **Asia-Pacific**, we have provided support for organisations navigating their most critical risks. Our expertise spans across a variety of sectors, including:

- Not-For-Profit
- Government
- Healthcare
- Aged Care
- Utilities & Infrastructure
- Financial Services
- Oil and Gas
- Transport
- Education
- Property & Retail
- Defence & Industry

In addition to these sectors, we specialise in addressing key areas of risk that affect organisations across industries, such as Cybersecurity & Data Breach and Disaster Recovery & Crisis Management. Our solutions help organisations manage cybersecurity threats, safeguard data, and prepare for natural disasters and other unforeseen crises.

Our scenario-based exercises cover incidents ranging from extreme weather events and natural disasters to failure of a third-party or a cyber related incident. These exercises are an essential tool in helping organisations validate their resilience and improve their response strategies for real-world situations.

We continue to help organisations increase their preparedness, enhance their recovery procedures, and build long-term resilience.

Highly motivated and industrious, Harrison brings a passion for business resilience and leadership with demonstrated experience in crisis management, business continuity, and resilience. Harrison is a current Member of Business Continuity Institute (MBCI) and is experienced in supporting C-suite executives and Board members across multiple industries and sectors. As a former professional sportsman, he has a unique ability to lead and work within high-performance teams and understands how individuals operate in high-pressure situations.
